

## ANARCHY

Good evening brothers and sisters of Glasgow. As I told you last month, the Anarch Free States are facing fierce conflict from the Sabbat and a new force that has arisen, forcing a bloody beachhead onto America. I am sure that there are several of you quite pleased at the thought of the Anarch Free States falling; us youngsters being put in our place and all that. But I ask you to dwell on this for a short time, and think about how this will effect y'all in the future; a strengthened Sabbat and a strong new force represented in the 'New World'; how long before they turn their gaze on Camarilla territories in the US? The rest of the world? Ventrue; think of the damage to your businesses if they take a full grip on America. Gangrel; the rolling plains of Canada and the mid-west will be all but closed to you. Toreador; what new sensory delights will be swallowed whole by the pitiless Sabbat, burning their way through the Kine they so despise? Brujah brothers; think of our friends and allies that stand at the brink of final destruction from the encroaching perverted darkness that the Sabbat wield with such delight. My Nosferatu friends, what of the knowledge that will be lost to you and yours? To the Tremere, we know how the Tzimisce despise you, we know that they will target you first when they begin their inevitable assault on 'The Old World'. Malkavians; they who would twist and try to pervert you loom over us like a mighty shadow. And as for others in high places within our city, how long before the dark eye of the Sabbat turns your way?

While you may dismiss these concepts as ridiculous and far-fetched, they are a distinct possibility for what lies before us. The dark hearts of the Sabbat will not attempt to conquer the Anarch Free States and then rest on their laurels, no they will surely continue on into Camarilla land, preaching their perverted gospel to all around them until the world is held under their black thrall.

The Anarchs are all that stands between the Camarilla and a bloody war. As always, we fight; we fight hard and strong and will fight with every last drop of blood, for we fight for freedom and to maintain that freedom pure from the corrupters of the Sabbat.

But the Sabbat are legion and we are but few in the grand scheme of things. We will fight on while we can, but our resources in the 'States are sorely stretched fighting on these two fronts. What we ask of you is that you send aid that our battles may last, protecting all from the hate that they bring. We are bound, Camarilla and Anarchs, bound through the Convention of Thorns, and through the long years of warfare against the Sabbat. It matters not what form the support comes in; fighters, weaponry, blood, money, it shall all be used for the destruction of those who would bring war and death to us all.

Due to this conflict, quite naturally the commune are busy fighting in the Anarch Free States with our brothers, so they cannot devote the proper time required to produce Anarchy, so they have contacted brothers around the world to ensure that news will still be spread, so I have taken it upon myself to contribute to the cause, writing when required, helping maintain the publishing network to keep your favourites like Spider Jerusalem, X and The Mighty Warrior Sven in print so keeping you all up to date with the things that matter in this world. If you wish to help or contribute, to this paper or to the war effort, contact me as usual, and I'll will sort everything out.

Keep the faith my friends, and we shall burn the darkness from the face of the earth.
