

ANARCHY

War in US!

As I am sure everyone knows by now the Sabbat is expanding in the US, currently smashing their way through the Anarch Free States but also threatening nearby Camarilla held cities. Well Gabriel and I went over to see whatr exactly the current situation was and the only way to put it is horrible!

The guys over there are fighting with everything there is, true heroism and real skill is to be seen exhibited left and right but to little avail. The main problem is that the Sabbat have the numbers to overwhelm defenses by (almost) human wave assaults!

Now there are a few Camarilla worthies there to aid us either living up to our treaties or else taking the sensible and long view that once the Sabbat have pushed out from the Free States they will not be stopping but swarming the next line of Camarilla cities as the Prince of San Francisco has been repeatedly telling the "elders". A truly notable example of these warriors has been the progeny of Don Cruz who have often been seen taking the battle to the enemy with both skill and dedication!

The problem is that the other thing which has made their efforts so noticeable is the almost total lack of other Camarilla members present! The Camarilla talks a good game about fighting the Sabbat and holding them back - also about representing all Kindred - then

when it would be time to put up or shut up, they choose to make like an ostrich and pray the end result of the war will be one which they can live with! Well here is the truth they have been missing - it won't be something they can live with: it will be an absolute disaster first for the America's then throughout the world!!!

Ask yourself this where are all the Sabbat warriors going to go? Straight down your throats looking for your blood thats where!

You all must decide:
Hang together for we shall surely hang apart!
